Dear Mom and Dad,

This is my third week of summer camp. I love it here! I am having
a lot of fun. We go canoeing every day. We play soccer.
 My team won yesterday. Every night, we have a camp fire. We
 eat hot dogs and sing songs. Next week, we are going to
make wallets and learn archery. I can't wait!

I also made a new friend here. His name is Tony. He is 12 too.
 Tony is on my soccer team. He is a very good soccer player
 because he is fast. He is also in my cabin. We have lots of fun
 together. Later, we will write letters to each other.

We have only two weeks of camp now. I don't want to come home.
 I'm having too much fun here. I should go to bed now. Tomorrow
will be a busy day. We will hike up Blackfoot mountain.
I will take pictures at the top and send them to you. I will
see you in two weeks. I love you both.

Sincerely,
 Jimmy

In the last ice age, there was a terrible war. It was not a war between people. It was a war between people and bears. Both the humans and the bears needed caves. Humans did not build houses yet. They needed caves for the cold nights. The bears also needed the caves. The bears of the ice age were much bigger than any bear today. They could be 20 feet long and weigh over 2,000 pounds. They also lived in groups of 5 or 6. Bears today live alone. Killing the bears was hard for the humans. Many humans died in fights with bears. But at last, humans won the war with the bears because the Earth got warmer. The giant bears could not live in the warmer weather. At the end of the ice age, all the giant cave bears were dead and humans could live in peace.

The most famous spider in the world is the black widow.
 The black widow lives mostly in the Americas. Black widows are
the largest web-making spiders. The females are about an inch
and a half long. They are much larger and more dangerous
than the males. You can easily tell the female
from the male spiders. The female has a red spot on its stomach.
 The black widow has a very powerful poison. It is
15 times more deadly than rattlesnake poison. Because black
 widows only use a little poison in each bite, their bites
rarely kill people. Even so, a bite from a black widow
will make you very sick, and you will need to go to the hospital.

Most people dislike spiders. They think spiders are gross. But spiders are very helpful insects. Spiders eat other insects, and they eat a lot. One spider can eat over 1,000 times its weight in insects in one year. That means without spiders, there would be far too many insects in the world. They would eat all of our food and our lives would be really bad. Spiders help us in other ways too. Spiders make silk for their webs. This silk is very strong and very light. We can make ropes from it. These ropes are very strong. Mountain climbers sometimes use them. We also use spider silk in hospitals. Even a spider's poison can be helpful. We make some medicines out of spider poison. So, the next time you see a spider, don't kill it. It is one of our best helpers!

Everyone has rules to live by. This was true in Europe long ago.
 The warriors in Europe had a special set of rules. They called
 their rules the Code of Chivalry. The Code of Chivalry
told warriors how to live their life. The story, *The Legend of King
 Arthur*, taught new warriors about the Code of Chivalry.
 It had a few simple rules. Warriors could never lie, and
they could never cheat. In battle, one warrior sometimes
dropped his sword. The other warrior had to wait
until he picked it up. Also, they always had to listen
to their king. Finally, warriors could never quit a fight.
